What Happens Next

You will receive confirmation of your registration for the DM diploma and be enrolled in any selected courses. After completion of 25 CEU for core courses and based on your program objectives, a UW-DMC mentor will be selected to guide you in your remaining studies. At that time, you will submit information about other credits you would like to apply toward the diploma. Following completion of all course work, you will receive information about the Professional Study Project.

I'm not interested in enrolling right now, but please keep me advised of future courses.

I'm enrolling for the DM diploma and will also complete the next two pages
