This manual is intended to assist local officials in understanding and rating pavement drainage. It complements PASERWARE, the computerized pavement management program developed and supported by the Wisconsin Transportation Information Center (T.I.C.).

It was produced by the T.I.C. with assistance from the Federal Highway Administration, the Wisconsin Department of Transportation, and the University of Wisconsin–Extension. The T.I.C., part of the nationally known Local Technical Assistance Program (LTAP), is a Center of the College of Engineering, Department of Engineering Professional Development, University of Wisconsin–Madison.
